This Watu product is NOT a toy.

Ta (Min -5°C) to Ta (Max 45°C)

Keep the product and battery away from excessive heat. Do not place them on or in heating devices such as microwave ovens, stoves, fires, or radiators.

The Watu complies with European regulations for safety and EMC, for full details and declaration of conformity then refer to [www.namenesolar.com](http://www.namenesolar.com)

Electronic products and batteries must be taken to a separate waste collection point at the end of their working lives; they must not be disposed of in normal household waste. It is the responsibility of the user to dispose of the equipment using a designated collection point or service for separate recycling of waste electrical and electronic equipment (WEEE) and batteries according to local laws.

The light source in this luminaire is not replaceable; when the light source reaches the end of life the whole luminaire shall be replaced.

DC Supply

## Product Technical Specification

Solar PV panel

4V, 75 mA, Polycrystalline, Integrated mounting

Battery

500 mAh, 3.2V, LiFePO<sub>4</sub>

LED

0.5 W Cool-white

Ingress protection\*

IP54

Dimensions w/o stand

58 × 89 × 22 mm

with stand

165 × 105 × 74 mm

Weight w/o stand

73 g

with stand and pkg.

125 g

Certifications

VeraSol, CE, PVoC

Warranty

2-year

\* Protected against dust limited ingress and against water splashes from any direction.

## Performance Data

Light settings	Brightness	Solar run time*	Full battery run time
Low	15 lm	12 h	21 h
High	35 lm	5 h	8.5 h
Super Bright	50 lm	3 h	5.5 h

\*The SRT (daily solar run time) is the number of operational light hours the battery can store from one day of solar charging. A standard day of solar charging is measured equivalent to a source of 5 kWh/m<sup>2</sup>.
